Re: Letter of interest for project #NHPP R400-370

To whom it may concern:

Please accept this as Villalobos Concrete Inc's formal Letter of Interest in response to the "Request for Letters of Interest for Contractor CMGC Services US 287/SH 40 Passing Lane. Project for a concrete passing lane on US 287/SH 40 in Cheyenne and Lincoln County. The project is anticipated to include improvements for the SH 40/US 287 Corridor.

Dated 8/10/2020. Our point of contact will be.

Statement of interest: Villalobos Concrete is in good standing with Colorado Department of Transportation and all other owners we perform work for. The scope for this project is suited for work Villalobos has done in the past for CDOT (throughout the state), City of Colorado Springs, the City and County of Denver, and Douglas County in the last several years (Concrete paving, ADA ramps, sidewalk, airport runway, heavy highway construction and repair highway construction work, and construction management). Villalobos is well known throughout the CCD, CDOT region, as well as other cities and counties in the area. Our manpower (75 Employees), equipment (two Concrete Plants and several pavers) will help collaborate with Local, State and Federal agencies. Our management staff has over 30 years of construction experience and we have worked with several design teams. We have vast experience in heavy Highway construction and reconstruction of highways and roads and submit this Letter of Interest regarding the above project for consideration.

Sincerely
Corando Lozano Jr

A handwritten signature in blue ink, appearing to read "Corando Lozano Jr", is written over the typed name.
